

Exhibit 79

Hi Mark - I wanted to follow up on a couple of items we were discussing the other day at Westpoint Marina. USCG was able to come down and repair the damaged channel marker 13 near the Westpoint Slough entrance. We are now aware of the missing 'No Wake' buoy we had deployed in Westpoint Slough. I am ordering the replacement buoy and anchoring devices from Henderson Marine. We should have these in hand within the next week or so.

Thanks - Don
